PRIMARY PATENT EXAMINER

REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reasons for allowance. The closest prior art Haseltine et al U.S. Pat. No. 6,578,015 discloses a computer-implemented method/system for presenting an electronic bill from a biller to a customer over a computer network.

JP02004024896A Kato, Nobuyuki discloses a bill collection system which determines charges for goods.

IBM Technical Disclosure Bulletin discloses a telephone call connection monitor for a telephone billing system.

However, neither Haseltine nor Kato and IBM Technical disclosure Bulletin singularly or in combination fail to anticipate or render obvious the recited feature:

As per claims 1 and 11 " a requested contents notice unit which transmits to each of the users via the network, the corresponding requested contents and a payment execution information including an address of the notice information management unit to which a paying instruction regarding the corresponding requested contents is to be sent, and a settlement unit which makes a real-time settlement of the network when there is an access by one of the plurality of users to the paying address notified by the requested contents notice unit and the paying instruction regarding the corresponding requested contents from the one user is received".

As per claim 10 " a computer controlling said charge collecting system so as to cause said system to perform: a requested contents notice step for transmitting to each of the users by email via the network, the corresponding requested contents managed in the

notice information management step and a payment execution information including a paying address to which a paying instruction regarding the corresponding requested contents is to be sent, and a settlement step for making real-time settlement on the network when there is an access by one of the plurality of users to the paying address notified in the requested contents notice step and the paying instruction regarding the corresponding requested contents from the one user is received .

EXAMINER'S AMENDMENT

2. Please amend claim 10 as follow:

Claim 10, line 1, after "a computer program" add --- encoded on a computer readable medium--.

Confirmed by Phillip G. Avruch Reg. No. 46,076
